The table below shows how the top 3 and bottom 3 stocks performed and how they contribute to the performance of the portfolio. As of this report, as stated in our Key Fund Statistics, our portfolio contained 31 stocks. The S&P 500 Index is a broad index that contains 500 stocks whereas the Dow Jones Industrial Average is an Index that contains 30 stocks. As a diversified portfolio, we follow strict guidelines to maintain our diversification which in turn, can help protect your assets in case of a sudden downturn in a sector or multiple sectors. Sometimes performance can be affected negatively by diversification regulations. This year your Fund was required to sell some stock in order to meet the IRS's diversification standards which negatively affected the performance. Keep in mind, major indexes, such as the two mentioned above, may or may not have to follow the same set of standards on diversification to manage the product and, unlike the Fund, do not have any expenses or overhead.
